

## Social Housing

Countrywide serve many housing associations throughout the North West from Liverpool to Manchester, underpinning a total portfolio of c50,000 properties to address asbestos compliance.

Our asbestos removal works have been carried out to support term services maintenance in individual homes, sheltered housing and blocks of flats with full emergency cover provided 24/7.

### Value of works:

£2.5M

### Scope:

Removal of asbestos to include:

- Soffit and Facia replacement
- Floor tiles
- Textured coating removal
- AIB / Licensed works
- Kitchen and bathroom replacement
- Disability adaptations
- Risers
- Electrical and plumbing fitting surrounds
- Airing cup-boards
- Gilbury unit removal
- Removal of asbestos flue-caps
- Facilitate external insulation
- Emergency works

### Managing visibility of works.

Countrywide have developed innovative communication methods to enable our housing association clients total visibility of our activity.

### Mitigating risk

We have worked collaboratively to mitigate risk with clients and partner contractors, promoting a culture of behavioural risk management

### Resident liaison

Our innovative approaches have helped reduce anxiety amongst residents and given peace of mind, with support given to vulnerable tenants.

### Challenges:

- Working at height
- Partially occupied premises
- Dangerous animals
